

INFORME DE CUMPLIMIENTO PRELIMINAR AÑO 2025 VEHÍCULOS MOTORIZADOS LIVIANOS

Enero de 2026

V02

1. ANTECEDENTES

La Ley N°21.305 sobre Eficiencia Energética establece, entre otras materias, que el Ministerio de Energía deberá fijar, mediante resolución suscrita conjuntamente con el Ministerio de Transportes y Telecomunicaciones, el estándar de eficiencia energética para vehículos motorizados livianos nuevos comercializados en el país, cuyos responsables para efectos de su cumplimiento son los importadores o representantes para cada marca de vehículos comercializados en Chile, que estuvieren habilitados para emitir certificados de homologación individual. Así es como, en cumplimiento del mandato entregado por la ley, mediante resolución exenta N°5 de 2022, de los aludidos Ministerios, se fijó el estándar mínimo de eficiencia energética para vehículos motorizados livianos; el cual -de acuerdo a la mencionada norma legal- entró en vigencia una vez transcurridos veinticuatro meses desde la publicación en el Diario Oficial de la resolución referida precedentemente.

Asimismo, la ley 21.305 dispuso que, anualmente el Ministerio de Transportes y Telecomunicaciones fiscalizará el cumplimiento de los estándares de eficiencia energética, debiendo oficiar a la Superintendencia de Electricidad y Combustibles en caso de constatar el incumplimiento de los referidos estándares, a fin de que ésta inicie el respectivo procedimiento sancionatorio. Para efectos de lo anterior, la ley establece que la métrica que se utilizará para la definición de estos estándares será el rendimiento energético en kilómetros por litros de gasolina equivalente en términos promedio para el total de certificados de homologación individual emitidos; debiendo indicar, además, su equivalencia en gramos de CO2 por kilómetro. Ambos valores serán determinados usando la información contenida en la homologación del vehículo.

Por su parte, el Decreto Supremo N°14, de 2022, de los Ministerios de Energía y Transportes y Telecomunicaciones, que *Aprueba Reglamento que Establece el Procedimiento para la Fijación de Estándares de Eficiencia Energética Vehicular y las Normas Necesarias para su Aplicación*, establece, en su artículo 16° que, durante el mes de enero de cada año, el Ministerio de Transportes y Telecomunicaciones publicará en su sitio web el Informe de Cumplimiento preliminar.

En razón de lo anterior, el presente informe tiene por objeto, a partir de la información indicada en los literales a), b), c) y d) del citado artículo, dar cuenta del nivel de cumplimiento de los importadores o representantes que emitieron certificados de homologación individual a vehículos motorizados livianos nuevos respecto del estándar de eficiencia energética, para el período comprendido entre el 01 de enero al 31 de diciembre de 2025. Cabe señalar que los valores

indicados en las letras b), c) y d) fueron calculados en base a lo señalado en la mencionada Resolución Exenta N°5 de 2022.

2. RESULTADOS

A continuación, se presenta la información indicada en los literales a) y b) -tabla N°1- y literales c) y d) -tabla N°2- del artículo 16° del Decreto Supremo N°14 de 2022, del MEN y MTT.

Tabla N°1: Vehículos livianos con Certificado de Homologación Individual, emitidos en el periodo comprendido entre el 01 de enero al 31 de diciembre de 2025, rendimiento energético y equivalencia de CO₂.
